

## THE LITERARY EXPERT

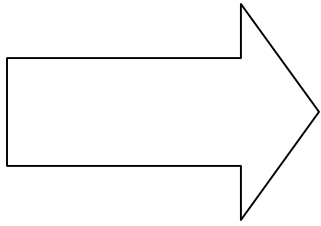

When you are the Literary Expert, your job has two parts. First, you are to look for significant passages in the section you're reading, and explain how they fit the themes that you believe are in the novel. Secondly, you are responsible for selecting three to five words from the passage that are challenging, unfamiliar to you, and/or interesting, and define these for your group. Use the graphic organizers below to complete your tasks...
