

## MAKE A PREDICTION

Predict two things that you believe will happen in the next section of your book. Be sure you have backed up these predictions with proof from the book, like a quotation from the scene that gave you the idea. (Quoting the section upon which you base your prediction will always get you higher levels.) Use the graphic organizer below to help you!

A graphic organizer for the first prediction. It consists of a thought bubble on the left containing the text "I predict:". An arrow points from the bubble to the right, with a box labeled "because" inside it. To the right of the arrow is a scroll-like box representing a page of text. At the top of this scroll is a box labeled "Proof:". The scroll has a vertical bar on the left and a curved top edge with a small tab on the right.

A second graphic organizer for the second prediction, identical in structure to the first. It features a thought bubble on the left with "I predict:", an arrow pointing right with a "because" box, and a scroll-like box on the right with a "Proof:" box at the top.
