

**Tips from Massey 2007 Graduates
to the Massey Classes of 2008 and 2009!
Massey Grad University/College Information Session
Sponsored by IMPAC
20 December 2007**

1. Don't cheat.
2. Do reading and keep up.
3. Go to extra tutorials.
4. Live it.
5. Love it.
6. Rock on!
7. Balance social and academic life. It's not easy!
8. Pay attention in Mr. Ing's class now. It will save you next year!
9. If possible, stay in residence for at least a term; it completes the University experience.
10. Have fun!
11. Live life!
12. Enjoy the moment!
13. Go to class.
14. Talk to everyone.
15. Be ahead of the game.
16. Professors are teachers, so don't be afraid to ask questions.
17. Time management. Just because you have lots of time one week doesn't mean you will next week.
18. Don't choose a specific university just because of which university it is. Choose based on program, scholarships, and where it is.
19. Keep up with your reading! Don't fall behind.
20. Make your selections for the right reasons (e.g. your interest in program, school offers good education), not because your friends are doing it.
21. Be open to make friends and approach prof to ask questions.
22. If you are planning entering graduate/professional school, you should look into that now. There are some programs that require prerequisites, so you need to choose a bachelor's degree that will allow enough flexibility for you to take all the classes you need.
23. Make new friends and start a buddy support system. Then you'll have people to study with and also talk/have fun with.
24. Studying is very, very important but make sure you find a good balance between hard work and some off time. Organize your time well.
25. Plan ahead. Look for courses required for your degree/graduate school.
26. Make new friends who you can study and have fun with. Makes it all enjoyable
27. Time management is important and so is staying calm.
28. Stay calm!
29. Learn how to manage your time.
30. Enjoy the experience.

31. Choose what you think is best for you, not for anyone else. Research schools a lot and visit them!
32. Money is important, but not the most important thing. If you can stay at home and go to Windsor, do it.
33. Go to class.
34. Keep your options open.
35. Business is fun; math is review (Go Mr. Ing!); CS is doable.
36. With freedom, comes responsibility.
37. Make sure that the electives that you take are courses you enjoy.
38. Study well in advance of all exams.
39. Have fun.
40. Go to class; it is easy to skip in university, so go to class.
41. Start getting prepared now. Organize your life.
42. Have fun.
43. Make a study group.
44. Keep your options open.
45. Have fun.
46. Keep your options open.
47. Work hard.
48. Have fun
49. Leave your options open.
50. If you can afford it, go away.
51. Don't worry.
52. Be organized! Applying to a million universities mixed with everything they send you, can be overwhelming.
53. Be organized in your first year too. Time management is key.
54. Check out every place you want to go because you have to spend the next Four years there.
55. Do not procrastinate
55. If you don't like the program, re-think what you want to do.
56. Stick it out if you love what you do. It's hard, but it's worth it.
57. Work hard, play hard.
58. You can go into an exam, know everything and fail.
59. You can go into an exam knowing nothing and get an A.
60. Some things aren't meant to be logical. University is one of these things.
61. Expect to fail something.
62. Want a life? You'll lose some marks.
63. Don't procrastinate.
64. Don't procrastinate.
65. Don't procrastinate.
